Compatibility with browsers and assistive technology

Our mission goal is to be able to support the widest array of browsers and assistive technologies as possible. We have therefore invested efforts to support popular systems with high market share, including Chrome, Firefox, edge, Opera and Safari VoiceOver on a MAC. We have also addressed JAWS and NVDA assistive technologies for Windows and MAC.

Technical specifications

Accessibility of this website relies on the following technologies to work with the particular combination of web browser and any assistive technologies or plugins installed on your computer:

- HTML
- WAI-ARIA
